Western Memorial Hospital Deliveries

As we get closer to our transition to the new hospital in Corner Brook, we would like to inform vendors that the official closing date for Receiving/Deliveries at the existing Western Memorial Hospital site is **May 30, 2024**. Receiving Personnel will not be available at the existing site after this date and therefore no deliveries will be accepted. Please note, this change will apply to WESTERN ZONE purchase orders and deliveries only.

If vendors are unsure of delivery location at time of order placement, they are asked to work with the relevant NLHS Buyer to clarify any uncertainty. Also, vendors are asked to ensure their transportation/logistics partners are informed of the change.

Please update the account number in your systems to reflect our new address as of May 31, 2024.

We appreciate your patience and cooperation as we make this exciting move to our new hospital!

Vendor Management Team Update

The NLHS Vendor Management team met in St. John's this month to discuss goals for the current fiscal year, creation of efficiencies in our daily processes and to collaborate with internal departments on how we best fulfill our role within the broader health system.

During our time together we were also able to do a site visit with Cardinal Health in Mount Pearl. The Cardinal Health team provided a tour of their warehouse facility and overview of their order fulfillment and warehouse management processes. The team was truly impressed at Cardinal's operation as well as their focus on the patients at the end of the products they supply and distribute. We appreciate the Cardinal team for their time and great work in supporting our health supply chain and patient care in Newfoundland and Labrador!

Vendor Communications

We are currently developing a new NLHS Supply Chain website and are keen to receive your input regarding the type of content you feel is important as a vendor partner. Please feel free to include your feedback on our monthly Vendor Partner Newsletter as well - what type of content you would like to see more (or less) of and how future newsletters might be improved. Please email your feedback to vendor.relations@centralhealth.nl.ca with the subject "Vendor Communications Feedback".
